Who We Are & What We Do

YD Advisory is a boutique strategic and financial advisory firm.

We partner with family offices, holding companies, startups, investment firms, and growth-focused businesses to provide transaction advisory, M&A support, corporate finance, valuations, and fractional CFO services.

What sets us apart is our execution-focused and embedded approach — acting as an extension of your leadership team rather than an external consultant. By leveraging advanced AI-powered tools, we deliver strategies, financial models, and insights faster and more effectively than traditional consulting firms, ensuring timely decision-making and actionable outcomes.

As a boutique firm, we also provide cost-efficient, price-friendly solutions without compromising on quality, offering the expertise of big firms with the agility and personalization of a trusted partner.

Valuation, Deals & Fractional CFO—End to End

- Tailored to each business model—not templated
- Independent and conflict-free—with founder-led execution
- Built for decision-making, not just documentation

We don't just deliver slides and spreadsheets.

We help turn numbers into confidence, and confidence into action.

We help founders, investors, and family offices value, structure, and close transactions—with embedded CFO support when you need it.

Our Leadership

A cross-boarder transactions with deep experience in Fractional CFO, M&A, Fundraising Execution, and Valuation across sectors and geographies

Yashaswi Das
Founder & CEO YD Advisory

Chartered Accountant | CFA Charterholder | FMVA

Yashaswi Das is a corporate finance and transaction advisory specialist with over a decade of experience advising founders, investors, and family offices on complex financial decisions. She brings deep expertise across transaction advisory, fractional CFO leadership, and strategic finance, supporting businesses through growth, capital raising, and deal execution.

Her work spans business valuations, financial modelling, M&A advisory, and due diligence, with a strong focus on delivering investor-ready, decision-driven insights aligned with international standards (IVSC).

She actively partners with clients as a fractional CFO, driving financial strategy, capital planning, and performance visibility, while also leading end-to-end transaction execution—from structuring and valuation to investor engagement and deal closure.

Prior to founding YD Advisory, she worked with JPMorgan Chase and Dubai Holding. Operating across Dubai and Singapore, she supports startups, SMEs, and institutional clients across fundraising, valuation, and transaction mandates globally.

Founder's Track Record

Proven execution across IPO readiness, transaction advisory, and fractional CFO mandates for growth-stage and institutional clients.

Core Capabilities Delivered

- End-to-end transaction execution — from evaluation to deal closure
- IPO readiness, structuring, and regulatory alignment (DFM, ADX, DIFC)
- Fractional CFO leadership — financial strategy, FP&A, and capital planning
- Financial modelling, valuation (DCF/comps), and investor-ready outputs
- Due diligence, QoE, and capital structuring support

Selected Engagement Outcomes

Selected Engagement Outcomes

- Delivered investor-ready financial models used in fundraising, audits, and board decisions
- Executed transactions from diligence to closure, including structuring and negotiations
- Established FP&A discipline, cash flow visibility, and board reporting frameworks
- Supported capital raising and investor/lender engagement processes

Experience Backbone (Firm-Level Strength)

- Leadership with experience across JPMorgan, Dubai Holding, and corporate finance advisory
- Exposure to GCC, India, and cross-border transactions
- Strong foundation in private equity analysis, M&A execution, and valuation

Track Record Metrics (keep your numbers)

- 50+ mandates executed
- \$100M+ capital advised
- 15+ sectors served
- 10+ geographies covered

Engagement Approach (How We Execute)

- Partner-led execution with direct senior involvement across all phases
- Hands-on delivery — not just advisory, but active involvement in modelling, structuring, and execution
- Tailored solutions based on client stage, sector, and regulatory environment
- Seamless coordination with stakeholders — investors, auditors, legal, and regulators
- Focus on speed, clarity, and decision-ready outputs

Management Team

Operators and advisors combining strategic finance, execution, and cross-border transaction experience.

Rishabh Jain

Managing Director & Operations

Rishabh Jain works at the intersection of people strategy and business execution. He focuses on building scalable organizational structures, driving business strategy, and aligning HR and marketing with growth objectives. His work centers on improving operational efficiency, strengthening teams, and enabling sustainable business expansion.

Kajal Singh

Associate Analyst — Strategic Finance & Advisory

Kajal Singh is an Associate in Strategic Finance & Advisory, supporting fractional CFO engagements across growing businesses. She works on financial analysis, budgeting, forecasting, and cash flow management, helping leadership teams gain better visibility into financial performance and decision-making. She also contributes to transaction advisory and structuring, supporting deal evaluation and execution.

Heewon Lee

Promotions, Distribution & Client Relationship Executive

Heewon Lee is Korean Nationality where she supports Business Development & Operations, supports client engagement, strategic outreach, and internal coordination across transaction advisory activities. She brings experience in market analysis, venture research, and international expansion, contributing to partnership development and client acquisition across technology and healthcare sectors through data-driven insights and cross-functional execution.

Ayush Kaushik

Board Advisor — Transaction Advisory & Structuring

Ayush Kaushik is a Board Advisor specializing in transaction advisory and deal structuring. He brings experience across financial modelling, valuation, and M&A advisory in GCC and Asian markets. His work includes supporting IPO readiness, financial due diligence, and building robust valuation models (DCF and comparable analysis) to guide strategic decision-making.

What Sets Us Apart

1

Founder-Led & Hands-On

You're not handed off to juniors. Every mandate is led by experienced advisors who stay involved from day one to delivery.

2

Efficient & Boutique Speed.

We bring institutional-grade models, valuations, and frameworks—without the overhead, delay, or red tape. By leveraging AI-powered tools, we deliver sharper insights and faster outputs than traditional approaches.

3

Tailored, Not Templated

Each client is different. So are our deliverables. Every model, valuation, and memo is crafted to reflect your business, not just industry norms.

4

Sharp Thinking, Clear Output

We combine technical depth with clarity. Whether it's a sensitivity table, a term sheet breakdown, or a KPI pack, we make sure the insights are usable and investor-ready—while keeping our solutions cost-efficient and price-friendly.

PROJECT DELIVERY & ENGAGEMENT MODELS

PROJECT DELIVERY ENGAGEMENT MODELS

FTEs

01

Full-Time Embedded

An offshore team acts as your extended team, charged on a monthly basis. As the team is full-time, it understands all your strategic and operational challenges.

- Full-time embedded advisor model
- Monthly engagement structure
- Deep contextual understanding
- Ideal for ongoing advisory needs

Retainer

02

Defined Hours Model

All repetitive tasks that require certain hours of work monthly or weekly, billed on a consistent monthly basis.

- Defined monthly or weekly hours
- Monthly billing structure
- Best for recurring analysis
- Flexible scope within agreed hours

Ad-hoc

03

Project-Based

A specific project with specific deliverables executed as outlined in the agreed proposal.

- Project-based engagement
- Fixed scope & clear deliverables
- Executed per agreed proposal
- Ideal for one-off mandates

OUR SERVICES

Fractional CFO | Transaction Advisory | Strategic & Corporate Finance

We partner with founders and investors to bring institutional-grade financial leadership, combining fractional CFO support with transaction execution and strategic finance.

For Companies

Helping founders, CFOs, and boards make confident financial decisions as they grow, raise, or exit.

Business Valuations & 409A Valuation

Independent, audit-ready valuations built for fundraises, ESOPs, and compliance.

Advance Financial Modelling & Forecasting

Investor-grade three-statement models, sensitivity scenarios, and unit economics.

Fundraising Support (Equity & Debt)

Pitch deck refinement, cap table modeling, and term sheet advisory to align with investor expectations.

M&A Advisory

Red-flag diligence, working capital reviews, due diligence support, and value driver articulation for partial or full exits.

Fractional CFO, Strategy & Board Support

On-demand finance leadership—from board reporting to capital strategy.

Feasibility & Option Papers

Market-driven analysis for go/no-go calls, expansion decisions, and strategic pivots.

Litigation Support & Financial Expert

Financial Expert Witness

Independent expert opinions for courts, arbitration panels & regulatory bodies on financial matters.

Valuation in Dispute

Court-defensible business & asset valuations in shareholder disputes, M&A litigation & divorce.

Expert Reports & Testimony

Structured expert reports meeting DIFC, ADGM, ICC, SIAC & international arbitration standards.

Quantum of Damages

Loss of profits, diminution of value & economic damages quantification with scenario sensitivity analysis.

Forensic Financial Review

Tracing of funds, transaction reconstruction & financial analysis in fraud and dispute investigations.

Arbitration & Mediation Support

Financial advisory support in settlement negotiations, mediation sessions & pre-trial strategy.

Global Lawyer Liaison

Coordinating with legal counsel across MENA, ASEAN, UK & India to deliver aligned financial evidence.

End-to-End Case Support

Embedded financial advisory through all stages — from pre-action to judgment and enforcement.

Independent. Court-Ready. Built for Disputes, Arbitration & Regulatory Proceedings

For Investors & Family Offices

Supporting capital allocators across the deal lifecycle - from screening to stewardship.

Mergers & Acquisitions (M&A) Advisory

Acquisition and divestiture strategies,
Transaction support and due diligence,
Post-merger integration advisory

Investment & Financial Advisory

Portfolio management &
diversification strategies, Private
equity and venture capital advisory,
Alternative investment evaluations
(e.g., real estate, hedge funds)

Valuation Services

Business valuations for privately held
assets, Complex security valuations,
Intellectual Property (IP) valuations,
Purchase Price Allocation (PPA)

Cross-Border Structuring & Tax Planning

Holding structures and entity maps
designed for compliance and
optimization.

Succession & Legacy Planning

Valuation-led structuring to support
intergenerational wealth transfers.

Specialized Valuation Services

We help you use Valuation to your advantage.

01. Compliance & Regulatory Valuations

- 409A Valuations (Stock option pricing for tax compliance)
- Purchase Price Allocation (PPA) (Allocating acquisition price among tangible and intangible assets)

02. Financial & Complex Instrument Valuations

- Complex Security Valuations (Convertible securities, warrants, preferred stock, hybrid instruments)
- Cryptocurrency & Digital Asset Valuations (Crypto-assets, tokens, NFTs)

03. Intangible Asset Valuations

- Intellectual Property (IP) Valuations (Patents, trademarks, copyrights, trade secrets)
- Goodwill & Brand Valuations (Brand equity, reputation, customer loyalty)
- Carbon Credit Valuations (Environmental and sustainability credits)

Fixed & Tangible Asset Valuations

Independent. Standards-Compliant. Built for Deals, Audits & Financing.

PP&E Valuations

Fair value and depreciated replacement cost for plant, property & equipment. IFRS 13 / IVS aligned — built for lenders, auditors, and M&A.

Machinery & Equipment

Independent appraisals for individual assets or full fleets — financing, insurance, disposal, and acquisition decisions.

Impairment Testing Support

Recoverable amount assessments under IAS 36 / IFRS 13 — defensible, audit-ready, and aligned to reporting deadlines.

Real Estate & Land

Market, income, and cost approach valuations for commercial property, industrial sites, development land, and warehousing.

Infrastructure & Specialist Assets

Power infrastructure, utilities, logistics facilities, and sector-specific plant — including specialist asset appraisals.

Every asset value we assign is defensible — in a deal room, a lender pack, or an audit file.

Inventory, Cost Allocation & Industry Asset Valuations

Sector-calibrated. Audit-ready. From a single stock count to a full industrial asset register.

Inventory Audit & Valuation

Stock count verification, NRV assessment & write-down analysis — IAS 2 compliant.

Cost Allocation Studies

Direct & indirect cost allocation across units, products & assets — transfer pricing & margin support.

Manufacturing & Industrial

Production lines, tooling, moulds & processing plant across FMCG, pharma & heavy industry.

Oil & Gas Assets

Reserves-based valuation, decommissioning liability assessment & field asset appraisals.

Healthcare Assets,
Retail & FMCG Inventory,
Agriculture & Agri-commodities
and many more of such notable
industries

Hospitality & Leisure

Hotels, F&B outlets & entertainment infrastructure — income and cost approach valuations.

From a single stock count to a full industrial asset register — every output is audit-ready and commercially defensible.

Key Highlights

50+ Clients | \$100M+ in Capital Supported

Worked with over 50 startups, SMEs, and investors—helping clients raise, structure, or unlock more than \$100 million across equity, debt, and M&A transactions.

Clients Across 10+ Geographies

Served founders, family offices, and funds across the UAE, India, Singapore, Saudi Arabia, the UK, and more—navigating both local and cross-border deal dynamics.

15+ Sectors Covered

Advised across a broad range of industries including fintech, healthcare, logistics, real estate, manufacturing, and consumer—bringing sector-specific insight to every mandate.

Why Work with Us

Personal Involvement, Always

You work directly with experienced advisors who stay involved from day one—no hand-offs, no dilution. Every mandate gets the attention it deserves.

Not Just Numbers—Strategic Clarity

We don't just deliver models or valuations—we help you understand them, defend them, and use them to move forward with confidence.

Deep Transactional Experience

With \$100M+ in supported deals across 10+ geographies and 15+ industries, we bring real-world insights, not theoretical advice.

Trusted Across Stages and Stakeholders

From seed-stage founders to multi-family offices, our clients stay with us because we combine rigor with reliability—and we show up when it matters most.

We treat every mandate like it's our own skin in the game.

Our Unique Approach

At YD Advisory, we don't believe in checking boxes—we believe in shifting outcomes. From valuation calls to investor negotiations, we think ahead, ask sharper questions, and build what actually gets deals done. Not just what looks nice in a spreadsheet.

WE THINK LIKE OWNERS, NOT VENDORS

We don't just "deliver" documents—we get into the weeds, challenge assumptions, and help you see around corners. Because we're invested in the result, not just the file.

WE BALANCE MATH WITH MARKET

A valuation model that's technically perfect but commercially tone-deaf is useless. We blend financial rigor with pattern recognition from 50+ live deals—so your outputs work in the real world.

WE STAY WITH YOU BEYOND THE DELIVERABLE

Need help articulating numbers to investors? Navigating board pushback? Redoing projections the night before closing? We stay close, accessible, and in the loop—until it lands.

SELECT CLIENT STORIES

Business & Complex Valuations | Advisory | M&A

Case Study

YD Advisory has executed mandates across Carbon Credits & ESG Tokenisation, Biotech & Healthcare, and AI Technology & SaaS — delivering valuations, structuring, and transaction advisory that hold up in investor rooms and regulatory filings.

Beyond these cases, YD Advisory has delivered mandates across 15+ sectors and 10+ geographies — consistently enabling clients to achieve significant financial and strategic outcomes.

Unlocking Carbon Value (Web3 / Climate Tech)

Challenge: Carbon project developer sought to tokenise verified credits on-chain. No valuation precedent existed; investors required audit-ready, registry-mapped opinions before committing.

YD Advisory: Delivered a valuation framework mapped to Verra VCS & Gold Standard, built a token-economics stress model, and produced IFRS-aligned ESG reporting with assurance-ready metrics.

Result: USD 12M in tokenised instruments structured; methodology accepted by institutional ESG fund; project proceeded to Series A close.

From IP to Investment (Biotech / Healthcare)

Challenge: Biotech firm with a proprietary drug-delivery platform needed independent IP valuation for Series B. Investors challenged revenue ramp assumptions and IP defensibility.

YD Advisory: Executed multi-method IP valuation (Relief-from-Royalty & MPEEM), rebuilt three-statement model with FDA milestone-gated scenarios, and prepared full data room with QoE and risk-adjusted NPV.

Result: Series B closed at USD 18M pre-money; IP valuation accepted without challenge by lead investor's diligence team.

Scaling with Confidence (AI SaaS / Technology)

Challenge: UAE-based AI SaaS platform preparing for acquisition had inconsistent ARR recognition, no 409A opinion, and a cap table that would not survive diligence scrutiny.

YD Advisory: Normalised ARR under IFRS 15, delivered 409A / ASC 718 valuation, rebuilt unit economics (CAC, LTV, NRR), and prepared full sell-side IM and financial data room.

Result: Acquisition initiated at 6.2x ARR; 409A defensible for ESOP; buyer diligence completed in under 4 weeks from data room launch.

Selected Engagements

Recent engagements delivered for Investors, Family Office, Holding Companies, Start up & Growing Businesses

50+ corporate valuations, incl. multiple IRC 409A opinions; advanced financial modelling for fundraising and board reporting.

Feasibility model for a blockchain platform using dynamic adoption/throughput scenarios and token-economics stress tests.

Real-estate valuation & project feasibility model for a mixed-use development; sensitivity on absorption, pricing, and funding scenarios.

Scenario-driven financial model with Monte Carlo simulation, CRR binomial lattices, and goal-seeking back-solves; implemented in Python & VBA for a Bank & NBFC.

M&A advisory across technology, holding company, and medical businesses: buy-side mandate with takeover/reverse-takeover structuring and capital-markets readiness.

Buy-side due diligence for investors and family offices: financial, technical/operational, and market workstreams; investment committee materials.

Fractional CFO for a VC-backed startup, trading & manufacturing company, PE SPV, and a family office: cashflow, reporting, covenants, and investor updates.

Succession planning for a family office: trust/foundation set-up, governance framework, compliance program, and regulatory liaison.

Carbon-credit valuation & ESG reporting for a carbon project developer; methodology mapping to major registries and assurance-ready metrics.

Capital market, IPO & SPAC - RTO Transaction Advisory across investment banking, Mining industry & Oil and Gas Industry

Fractional CFO & Advisory across investment banking, Mining industry & Oil and Gas Industry, Healthcare, Biotech industries.

Blockchain, Web3, Carbon credit, token omics and tokenisation financials, strategic accounting, financial model & evaluation.
