Who We Are & What We Do

YD Advisory is a boutique strategic and financial advisory firm.

We partner with family offices, holding companies, startups, investment firms, and growth-focused businesses to provide transaction advisory, M&A support, corporate finance, valuations, and fractional CFO services.

What sets us apart is our execution-focused and embedded approach — acting as an extension of your leadership team rather than an external consultant. By leveraging advanced AI-powered tools, we deliver strategies, financial models, and insights faster and more effectively than traditional consulting firms, ensuring timely decision-making and actionable outcomes.

As a boutique firm, we also provide cost-efficient, price-friendly solutions without compromising on quality, offering the expertise of big firms with the agility and personalization of a trusted partner.

Valuation, Deals & Fractional CFO—End to End

- Tailored to each business model—not templated
- Independent and conflict-free—with founder-led execution
- Built for decision-making, not just documentation

We don't just deliver slides and spreadsheets.

We help turn numbers into confidence, and confidence into action.

We help founders, investors, and family offices value, structure, and close transactions—with embedded CFO support when you need it.

Our Leadership

A cross-boarder transactions with deep experience in M&A, fundraising, and valuation across sectors and geographies

Yashaswi Das
Founder YD Advisory

Chartered Accountant | CFA Charterholder | FMVA

Yashaswi Das, CA, CFA is a corporate finance and valuation specialist with over 10 years of experience advising founders, investors, and family offices on complex financial decisions and transactions.

She specializes in business valuations (including 409A, complex securities, and IP valuation), financial modeling, M&A advisory, and due diligence, delivering rigorous, audit-ready analysis grounded in international valuation standards (IVSC). Her work is supported by advanced analytics platforms such as Capital IQ, ValuSource, Factiva, and Monte Carlo simulation techniques.

Prior to founding YD Advisory, Yashaswi worked with leading institutions including JPMorgan Chase and Dubai Holding. Through her licensed advisory practice with presence in Dubai and Singapore, she supports startups, SMEs, family offices, and investors globally across fundraising, valuations, and transaction execution throughout the deal lifecycle.

Founder's Track Record

Investor-grade valuation, deal execution, and fractional CFO leadership across growth-stage and institutional environments.

Selected Outcomes

- Investor-ready models & valuations used in fundraising, audits, and board reviews.
- Deal support from model to close: diligence, terms, and capitalization design.
- Fractional CFO impact: board reporting cadence, runway/FP&A discipline, debt-vs-equity strategy, and investor/lender interface.

What Sets Us Apart

1

Founder-Led & Hands-On

You're not handed off to juniors. Every mandate is led by experienced advisors who stay involved from day one to delivery.

2

Efficient & Boutique Speed.

We bring institutional-grade models, valuations, and frameworks—without the overhead, delay, or red tape. By leveraging AI-powered tools, we deliver sharper insights and faster outputs than traditional approaches.

3

Tailored, Not Templated

Each client is different. So are our deliverables. Every model, valuation, and memo is crafted to reflect your business, not just industry norms.

4

Sharp Thinking, Clear Output

We combine technical depth with clarity. Whether it's a sensitivity table, a term sheet breakdown, or a KPI pack, we make sure the insights are usable and investor-ready—while keeping our solutions cost-efficient and price-friendly.

Key Highlights

50+ Clients | \$100M+ in Capital Supported

Worked with over 50 startups, SMEs, and investors—helping clients raise, structure, or unlock more than \$100 million across equity, debt, and M&A transactions.

Clients Across 10+ Geographies

Served founders, family offices, and funds across the UAE, India, Singapore, Saudi Arabia, the UK, and more—navigating both local and cross-border deal dynamics.

15+ Sectors Covered

Advised across a broad range of industries including fintech, healthcare, logistics, real estate, manufacturing, and consumer—bringing sector-specific insight to every mandate.

Why Work with Us

Personal Involvement, Always

You work directly with experienced advisors who stay involved from day one—no hand-offs, no dilution. Every mandate gets the attention it deserves.

Not Just Numbers—Strategic Clarity

We don't just deliver models or valuations—we help you understand them, defend them, and use them to move forward with confidence.

Deep Transactional Experience

With \$100M+ in supported deals across 10+ geographies and 15+ industries, we bring real-world insights, not theoretical advice.

Trusted Across Stages and Stakeholders

From seed-stage founders to multi-family offices, our clients stay with us because we combine rigor with reliability—and we show up when it matters most.

We treat every mandate like it's our own skin in the game.

Our Unique Approach

At YD Advisory, we don't believe in checking boxes—we believe in shifting outcomes. From valuation calls to investor negotiations, we think ahead, ask sharper questions, and build what actually gets deals done. Not just what looks nice in a spreadsheet.

WE THINK LIKE OWNERS, NOT VENDORS

We don't just "deliver" documents—we get into the weeds, challenge assumptions, and help you see around corners. Because we're invested in the result, not just the file.

WE BALANCE MATH WITH MARKET

A valuation model that's technically perfect but commercially tone-deaf is useless. We blend financial rigor with pattern recognition from 50+ live deals—so your outputs work in the real world.

WE STAY WITH YOU BEYOND THE DELIVERABLE

Need help articulating numbers to investors? Navigating board pushback? Redoing projections the night before closing? We stay close, accessible, and in the loop—until it lands.

SELECT CLIENT STORIES

Business & Complex Valuations | Advisory | M&A

Case Study

YD Advisory has successfully executed transactions between USD 2m – USD 100m across Fintech, Logistics, and Healthcare, crafting board-level decks, robust due diligence, and seamless cross-border structures—consistently driving value and growth for our clients.

Beyond these highlighted cases, YD Advisory has successfully facilitated numerous other transactions, consistently enabling clients to achieve significant financial and strategic gains.

Capital for Growth (FinTech)

Challenge: Payments start-up sought USD 25m Series A, but investor questions on gross margins and unit economics stalled the process.

YD Advisory: Rebuilt unit economics model, ran 12-scenario DCF/409A, and prepared an investor-ready deck and data-room.

Result: Closed at USD 28 m pre-money - a 12 % uplift; founders retained an extra 4 % equity.

From Growth to Exit (Healthcare Clinics)

Challenge: Family-owned clinic network negotiating a 100 % sale to PE; buyer challenged EBITDA addbacks and asset transfers.

YD Advisory: Led red-flag QoE, carved non-core real estate, and modelled Black-Scholes earnout and PPA scenarios.

Result: SPA value raised by AED 7 m and warranty claw-backs ring-fenced.

Unlocking Capital (Logistics Real Estate)

Challenge: Regional logistics operator needed refinancing; warehouses were undervalued and structure was taxinefficient.

YD Advisory: Delivered IVSCcompliant IP & property valuations, Monte-Carlo sensitivity, and a sale-leaseback holding structure.

Result: LTV improved 55 %→70 %; AED 40 m growth capital released without equity dilution.

Selected Engagements

Recent engagements delivered for Investors, Family Office, Holding Companies, Start up & Growing Businesses

50+ corporate valuations, incl. multiple IRC 409A opinions; advanced financial modelling for fundraising and board reporting.

Feasibility model for a blockchain platform using dynamic adoption/throughput scenarios and token-economics stress tests.

Real-estate valuation & project feasibility model for a mixed-use development; sensitivity on absorption, pricing, and funding scenarios.

Scenario-driven financial model with Monte Carlo simulation, CRR binomial lattices, and goal-seeking back-solves; implemented in Python & VBA for a Bank & NBFC.

M&A advisory across technology, holding company, and medical businesses: buy-side mandate with takeover/reverse-takeover structuring and capital-markets readiness.

Buy-side due diligence for investors and family offices: financial, technical/operational, and market workstreams; investment committee materials.

Fractional CFO for a VC-backed startup, trading & manufacturing company, PE SPV, and a family office: cashflow, reporting, covenants, and investor updates.

Succession planning for a family office: trust/foundation set-up, governance framework, compliance program, and regulatory liaison.

Carbon-credit valuation & ESG reporting for a carbon project developer; methodology mapping to major registries and assurance-ready metrics.
